Using a working set limited to 2700 pages and 1478 pages of data storage (excluding image)

Total number object records read (both passes): 9122
 of which 4505 were in libraries and 1091 were DEBUG data records containing 115731 bytes

Number of modules extracted explicitly = 3
 with 60 extracted to resolve undefined symbols

222 library searches were for symbols not in the library searched

A total of 4 global symbol table records was written
